

MDR Cybersecurity Breach Warranty

Reduce Financial Costs and get Peace of Mind

In the never-ending fight against cyberthreats, our partners aims to support our customers in all aspects of their security program while reducing their worry about the impact that cyber incidents bring. While our partner created the XDR platform and MDR service to provide customers with the most comprehensive security coverage to help them identify, prevent, and stop threats, we wanted to stand by our service and give our customers the peace of mind they deserve.

That's why they partnered with [Cysurance](#) to offer a cybersecurity breach warranty, at no additional cost, to both our MDR and MDR PLUS customers. In the event of a cybersecurity incident, MDR customers can receive financial support to help mitigate the costs of a breach. Here's how it works:

Certification Warranty Indemnification			
MDR		MDR PLUS	
Ransomware ²	\$100,000	Compliance Event	\$200,000
		Ransomware Event & BEC Event	\$200,000
		Cyber Legal Liability Event ³	\$500,000
		Business Income Event ⁴	\$100,000
		TOTAL	\$1,000,000

Our MDR customers are eligible for up to \$1,000,000 USD in financial assistance in the event of an incident through this agreement. MDR Cybersecurity Breach Warranty is available at the start of a new MDR subscription or for existing MDR customers till the end of their contract after reviewing and accepting additional terms and conditions. For additional information [check out the FAQ](#).

What's Covered?

MDR Cybersecurity Breach Warranty, in partnership with Cysurance, provides financial support for a wide range of cybersecurity incident costs including:

- ↳ **Ransomware:** Ransomware, including remediation and ransoms
- ↳ **Business Email Compromise:** A BEC event resulting in funds transfer or invoice fraud, including remediation and lost funds
- ↳ **Compliance and Regulatory Failure:** A cyber breach that triggers HIPAA, PCI, OSHA, and/or state related violations and results in a regulatory penalty, fine, or related expenses
- ↳ **Cyber Legal Liability:** a suit arising out of a cyberattack, including loss or misuse of data, or a media peril related to your website where legal defense and settlement costs are incurred
- ↳ **Business Income Loss:** A security breach that results in the loss of business income (net profit or loss before income taxes), and/or any continuing operating expenses affected by it.
